PROGRAM OVERVIEW

The Akashic Magic Embodied Reader Certification Program is for practitioners, coaches, professionals, healers, and creatives who are committed to their spiritual connection and co-creating transformational change through their work.

It is for individuals who recognize the importance of integrity, balance, and doing their own work to continually evolve themselves to be of greatest service to their clients or audience.

Most practitioner training programs focus only on teaching you skills. The Akashic Magic Embodied Reader Certification Program is unique because it goes deeper to support you in establishing your own sacred relationship with your Akashic Records Keepers and working through your own shadows and facing your own light.

To do truly great work and receive Sacred Fame™ for the gifts and the service you bring to the world, it's imperative that you are deeply and intimately connected to your own Soul wisdom, guidance, and intuition so that you have a clear path towards your self mastery and expansion. The Akashic Records are the ultimate spiritual modality to usher in the 5D world and empower you in your personal and professional life.

Each module of the Akashic Magic Embodied Reader Certification Program includes not only skills to learn but also practical and tangible ways to embody the wisdom you receive through the Akashic Records. And you receive your Key to open them in the very first week!

PROGRAM DELIVERY

The Akashic Magic Embodied Reader Certification Program is a 6 month immersion into walking and working with the Akashic Records (also known as the Akashic Field) - the vibrational archive of the Universe that holds the guidance, wisdom, history and potential of your Soul. During this time you will learn to not only read the Records for yourself but also read for others.

The Course is laid out as follows:

You receive access to all modules and course materials upon enrollment. You have 12 months to complete all 6 modules and practice readings to receive your certification.

Each month there are two live Training and Integration calls. The calls are up 60-75 min via zoom.

You complete each module prior to attending a call. The calls provide a space for asking questions, getting support, sharing experiences, resistance, challenges and breakthroughs, and staying engaged with the student community.

During the calls we also clear the body and energy field from any old programs, resistance, and limiting beliefs and stories that come up for you. Using Energy Kinesiology balances delivered as live distance healing sessions, we up-level your energetics to support your new informed and empowered self.

PROGRAM DELIVERY

The program also includes:

- Supportive and engaged community (on Discord) for more connection, questions, answers and resources.
- Access to the alumni of the course for additional insight and perspective.
- An optional Practice Partner to share readings with as you increase your skills, so that you never feel alone as you're working your way through the modules and practicing what you learn.

TESTIMONIALS

Past Students Words:

Wendy Burge, Business Success Coach

This 5-month training has been comprehensive, engaging, transformative, and spacious. When learning to master spiritual gifts it's important to find a teacher who can demonstrate the practical application along with the principles to attainment. She brings both to the table and more. I appreciate the integration sessions she provided as part of the process. Giving students time to go out to 'do the work', debrief our experiences, and integrate the up-leveling these gifts provide has been incredibly important to this process. Kasia holds a depth of knowledge known only by someone who is devoted to mastering then teaching these gifts. Anyone wanting to bring to focus more of their spiritual development into the forefront of their life for applicable purposes needs to work with Kasia.

Alisa Farr, Sound Healer & Hypnotherapist

Learning to read from the Akashic Records had been on my radar for years, however no offering felt right enough for me to join in, until Kasia told me she was going to be offering a certification in the Akashic Records. I knew the time had come for me to learn. Knowing Kasia's passion and knowledge for the Records gave me a full body 'yes' to finally diving in and learning from the best. Even if you are already highly intuitive, learning to be within the Akashic Records will give you an additional resource to pull information from. If you are just beginning, learning from Kasia and the Akashic Record Keepers, you will learn to trust yourself more deeply. This program is thorough, powerful and fun... and Kasia is a wonderful and insightful teacher.

TESTIMONIALS

Past Students Words:

Liz Shaeffer, EFT Practitioner & Numerologist

Through this course I had many realizations about myself. For example that I had so much external focus and very little internal focus. I wanted to learn to read the Akashic Records so that I could help others, but I really struggled with just sitting in the Akashic energy for myself. Since then I have relaxed a little bit and kicked off this new journey about who I am, what am I up to and why I think I'm only as good as the things I do. It's been hard for me to just be ok with me.

I think I was expecting big and loud and what I got was quietly tapping into all this wisdom that I didn't know I would have. The experience has been so subtle and evolving my understanding. I learned that if I can just relax even more, I receive the recalibration that I need and I don't need to know the story around why or how. We get so attached to the story because we believe it somehow makes things better. But with my new awareness I am realizing that the story distracts us and it doesn't actually truly explain our experience. What if the story doesn't actually matter?

I have much less frenetic energy about me that I didn't expect to receive as a result of this work. Everything around me is changing, my relationships, how I see things and how I see the world.

I loved the pacing of this course. I learned that I don't actually need all the "party tricks" like cards, reports, and other props for readings. I can allow the messages to come through and don't need the comfort zone of any props. I also learned that I can be me and I don't have to be anyone else.

I love your blend of science and spirituality., the videos on how you explain things, the integration balances, too, it's just so good. I love how you were super accessible during the program. This wasn't just a training. You worked with all of us and maintained a connection and community throughout.

TESTIMONIALS

Past Students Words:

Rika Harris, Healer & Practitioner

I had waited for a while for Kasia to teach Akashic Record reading. First and foremost, I wanted to read for myself. For a while now I realized that I was channeling – wisdom? Understandings? Knowings? Insights? I did not quite know what to make of it. These would come through when I was using my other modalities like reiki or tapping for myself or clients. I was aware of it but had no control over when and how it would happen.

I wanted a container, a structure, maybe I was looking for certainties. Working with the Akashic Records attracted me for that reason. So, when Kasia offered the course, I jumped right in, with delight. Kasia has created a beautiful course, she gathered so much information, infused it with her own wisdom and kindness, and patience, and encouragement, and more. All of which I needed over the duration of the course.

After doubting myself a lot, I decided to go into the Records for myself every day, sometimes more than once. And the experience transformed, and I was able to receive messages from the Keepers. I am glad the course lasted this long (6 months) because it took me all this time to find my way. I love the readings so much now for myself and others. It is such a gift and I gained confidence to keep going and to have a lot of fun with it as well.

And I am so grateful that Kasia kept believing in me and in the process. She is a gifted teacher and I can recommend her to anyone wishing to learn. It is a beautiful and fun experience working with Kasia.

Past Students Words:

Meaghan Alton, Growth Strategist

I have been very intuitive and guided for a long time...as a result of this incredibly supportive training my ability to tap in and connect to my Soul's wisdom dramatically increased. I am using the Records is to expand my body of work with Numerology. I plug in and create powerful life changing content, receive deeper insight and guidance around my teachings, and to write guides and resources for my clients.

Combining the Records with my other modalities and skill sets has upleveled my gifts in unexpected ways. I would say I can easily attribute \$20,000 in revenue to my ability to create powerful content with ease... as a result of tapping into the Records through Kasia's guidance.

If you are considering this course - even if you aren't planning to do private Akashic Readings (which I don't do)... I HIGHLY recommend diving in. Kasia is a wealth of wisdom and insight.. and a wonderful and supportive teacher!!"
